

**DEPARTMENT OF EDUCATION INITIATES TO SETUP MATHS LAB IN 40  
SECONDARY SCHOOLS UNDER SAMAGRA SHIKSHA TO INCULCATE  
MATHEMATICAL THINKING AND UNDERSTANDING AMONG THE  
STUDENTS.**

In order to instil interest among the student to focus on the key concepts and applications addressed in Integrated Math and Geometry classes, the Department of Education A & N Administration initiated to set up 40 Maths Labs in all Govt. Secondary Schools (13 schools at South Andaman District, 19 Schools at North & Middle Andaman District and 08 Schools at Nicobar District). The Maths Lab will be designed with emphasis on enhancing the basic Math skills among the students with the objective to learn how to use algebraic & geometry techniques, learning to apply mathematics to real world applications and understanding of Maths concepts needed for future mathematics work. The Maths Lab will comprise of all the tools prescribed by the Central Board of Secondary Education to provide an opportunity to students to understand and internalize the basic mathematical concepts through concrete objects and situations.

The work for set up of Maths Lab has been awarded which will be completed by the end of February 2021. On completion of set up of Maths Lab, Maths Teachers will be imparted with two days training about the usage of tools/equipment's to explain the principles of Maths.
