

## **Department of Animal Husbandry and Veterinary Services**

### **Conducts Training on Bharat Pashudhan App in Junglighat**

The Department of Animal Husbandry and Veterinary Services (AH&VS), Andaman and Nicobar Administration, conducted a training program on the Bharat Pashudhan App for Veterinary Compounders on September 29, 2025, at the Conference Hall of the Veterinary Hospital, Junglighat. The initiative aimed to enhance livestock data management and improve service delivery across the Andaman and Nicobar Islands.

A total of 33 Veterinary Compounders participated, with 18 attending in person and 15 joining online. The training was led by resource persons from the National Digital Livestock Mission (NDLM), Mr. Rejith R., Assistant General Manager, and Mrs. Bhawna, Assistant Manager. The session focused on familiarizing participants with the app's features, enabling efficient data recording and management to support field-level animal husbandry services. The training equipped Veterinary Compounders with the skills to utilize the Bharat Pashudhan App effectively, streamlining livestock health monitoring, treatment tracking, and service coordination. The program emphasized the app's role in strengthening the AH&VS Department's efforts to modernize livestock management and enhance productivity for farmers.

The AH&VS Department commended the resource persons for their expertise and encouraged participants to implement the app's functionalities in their fieldwork to improve service delivery. The active participation of the Veterinary Compounders reflects their commitment to adopting digital tools for better animal husbandry practices. This initiative aligns with the Andaman and Nicobar Administration's vision of leveraging technology to promote sustainable agricultural development and support rural communities across the Islands.
