

# PREFACE

The present edition of Meteorological Statistics of Andaman & Nicobar Islands is the Eleventh in the series being published by the Directorate of Economics & Statistics, Andaman & Nicobar Administration. This edition contains data from 1949 to 2008 on the climatic condition of the Union Territory of Andaman and Nicobar Islands viz. Rainfall, Temperature, Humidity, Wind Speed and Earthquake.

I express my profound gratitude to the co-operation extended by the Meteorological Department, Port Blair in making available the data presented in the publication.

The publication is the result of devoted efforts put in by Shri Martin Ekka, Senior Investigator, Shri M.P.Muthappa and Miss D.Susaiammal, Statistical Assistants under the overall supervision of Smti. Mariamma Chacko, Statistical Officer (Pub). They worked hard to generate tables for this publication.

Any error or omission and suggestions for improvement of this publication may be brought to the notice of the undersigned.

( **Sashikala Viswanathan** )

Director of Economics & Statistics
